

ALUMAWELD

The All-Wheel Drive Solution For All Waters

Since 1971, Alumaweld's level of innovation and sophisticated engineering has set the standard for heavy gauge welded aluminum boats. We are committed to providing you with a consistent and comfortable boating experience. Built with exclusive extrusions and bottom strakes, Alumaweld boats offer exceptional strength and nimble handling. Designed by talented engineers, each detail, down to the tackle tray width, is carefully crafted for an unmatched fishing experience. Experience the unparalleled performance and strength of Alumaweld's all-season boats.

Dozens of exclusive design features make every Alumaweld distinctively comfortable and easy-to-own. Designed in White City, Oregon and available nationwide, each model promises unmatched quality and performance. Visit your nearest dealer to experience the Alumaweld difference yourself!

OUR FOCUS

State-of-the-art engineering is our focus. Exact engineering allows critical tolerances to be maintained, resulting in superior construction, ride, handling, and performance. That's why Alumaweld has earned the distinction of building serious fishing boats for serious fishing pleasure.

SIGNATURE FEATURES

NEW ALUMA-COAT INTERIOR – Helps protect against corrosion and premature wear with a sleek look.

PRE-FORMED PARTS – The chine, keel and gunnel extrusions are pre-formed so that all welds occur in a “stress-free” environment.

CNC ROUTER MACHINE – Precision cuts result in exact tolerances and unrivaled consistency.

MASSIVE FULL-LENGTH BOX GIRDERS – Provide ultimate bottom support with optimum structural performance.

PERFORMANCE PATH LIFTING STRAKES – A proprietary feature, they enhance both running and fishing performance.

DRY RIDE – This means a smooth, dry, and comfortable ride every time!

CONTINUOUS WELDS THROUGHOUT – Continuous welds for superior strength and long lasting durability.

OPTIMUM FREEBOARD – Less sidewall flare, taller sides, and more interior freeboard make every Alumaweld more seaworthy.

ROGUE GALVANIZED TRAILERS – Featuring all welded galvanized steel channel construction which resists rust and corrosion.

EXCLUSIVE EXTRUSIONS – Heavy-duty continuously welded extrusions deliver unmatched strength.

When you purchase an Alumaweld you're buying experience, integrity, performance, and a commitment that is unmatched. Alumawelds are the best running, best performing boats in their class.

FREE DRIFTER

6° VEE BOTTOM

Standard Features

- Two comfort seats on aluminum storage boxes
- Extended step deck with storage and fish box
- Lifting/turning strakes
- Straight transom
- Depth finder boxes (port/starboard)
- Wide transom tray
- Four weld-on gunnel cleats located under coaming
- Standard welded swim step (18')
- Full length wide side trays
- Navigation lights
- Switch panel with USB charger
- Washdown hose

The Free Drifter offers ultimate boat control with techniques like "side-drifting". Its 6° shallow water vee and Performance Path Lifting Strakes™ allow for quick planing and shallow tailout drifts. Wide tackle trays and a forward fuel tank provide balance and ample storage for rods. Enjoy complete freedom of movement for casting on this open design.
